Translate La Casita and it means Little House. But nothing could be further from the truth with this large, beautiful home that starts at 3,120 square feet and can be expanded up to 3,702 sq. ft. by adding a Loft (over 400 sq. ft.) and an intimate downstairs Library set just off of the formal Dining Room.

Walk into this fabulous home and prepare to be impressed. The front of the house has a standard Bedroom with a Den option and full Bathroom. Pass the stairway and welcome to the ultimate family haven. The open floor plan is amazing and it ties the Family Room, Dining room, Kitchen and Nook together fabulously.

Don't forget the covered Patio downstairs and the Balcony option off the huge Master Bedroom upstairs. Every room upstairs can simply be described as generous. Each and every room is large including the secondary Bedrooms, the Laundry Room and of course the Loft.
